TO BE BETTER

TO DO IT RIGHT

TO THINK ABOUT THE FUTURE

ARCHITECTURE  
DESIGN  
ENGINEERING

LOCATION	YEAR	TEAM
UKRAINE, KYIV POLAND, WARSAW	2002	UVT GROUP

STATUS

AREAS OF ACTIVITY

- General Design
- Management of Construction Projects
- Designing Energy Efficient Buildings
- Design of Civil Aviation Objects

The UVT GROUP team brings together talented people from different areas of construction: from architecture, interior design and building design to highly specialized engineering sections such as BMS, HVAC; fire protection, security, low-current and other systems.

EXPERIENCE

KNOWLEDGE

EFFECTIVENESS

The UVT GROUP uses the latest engineering systems and technologies that provide the best energy efficiency of the building according to EN (A, B), LEED, and BREEAM standards.

COURAGEOUS DECISIONS - THOUGHTFUL DECISIONS

TO BE BETTER is the desire for development, the desire to improve skills, the search for new approaches and creativity. It is a challenge to make each next project better than the previous one.

To do it right is to adhere to best practices (experience) in decision making, it is the prevention of risks, creating the conditions for achieving the best result.

Thinking about the future is a daily activity aimed at understanding the consequences of our own actions, making effective decisions and anticipating the future.
